Hi all

I am searching for a fanmap but i dont know the name of it.

It has the Flying MRLS And the Comanche In it.

Its like a desert map with Mountains and Stuff,  
the map also has 2 Bridges and a river in the middle which you can use to get into the back of the  
enemy's base.

If Anyone knows the name of the map it would be very appreciated

Sounds like field. Except that field doesn't have that stuff. It's a mod I'm guessing.

By "Flying MRLS" he means Hover MRLS. See the attached screenshots.

The map is called RiverValley and I fucking love it too. Wish UN etc run it.

^ suggests it is a map, not a mod.
