Hi all

I am searching for a fanmap but i dont know the name of it.

It has the Flying MRLS And the Comanche In it.

Its like a desert map with Mountains and Stuff,
the map also has 2 Bridges and a river in the middle wich you can use to get into the back of the enemy's base.

If Anyone knows the name of the map it would be very appreciated

Sounds like field. Except that field doesn't have that stuff. It's a mod I'm guessing.
