First off make sure you have Renegade patched. Second you have to have a lagit serial to log onto xwis.

A legitimate serial. That means you didn't use a keygen or anything to get the serial illegally.

Buy the game, read serial off back of game manual...

EDIT: If your using The First Decade pack follow gozy's link to fix the problem, someone \*not mentioning names\* fecked up the serial fix in the renguard installer so it breaks your serial in the registry

The installer has been "fixed"(aka i removed the broken bit), untill i find v00d00 to properly fix his code
