Join the all new Renegade-United FunServer.

Were still in the beginning stages of everything for now but we have an AOW server which is on Gamespy/WOL which has some characters modded and runs NewMaps, along with some more additions that will be added along the way. We will have a website up and running after we get everything ready to go.

--More info will be provided by NodServnt(The Owner) when were all up and running. For now i just decided to give a little introduction about us.

Renegade-United AOW server info:
