Shall we, sir?

Everyone seemed to want it to happen a while ago, so... shall we 1v1? I can get a lagless server.

One game on your choice of map, my choice of side; and one game on my choice of map, your choice of side.

You have it wrong spoon man, games should work like this:

Troop host the server

Troop picks the map

Troop Chooses side

Pedastol is on

And if troop is losing and he leaves the game then it's not a loss

And you cheat

And if at ANY time he kills you, then you have to admit to being defeated by the almighty troopernub.

If somehow you beat him, there were automatically twice as many games played that neither player has proof of in which troop pwned you.

You would thinking running the official renegade league for so long you would know basic troop cw rules.

Yes, it is. although it doesn't belong in this thread. It was flipped so the facing was correct. It would be good if the SEye could be run on this server.

This challenge has been made before in at least one thread. Troop, despite making several posts in that very thread, never acknowledged the challenge.

1. I'm certainly not the best there is... as far as 1v1s go, SS and Poison are definitely better, and there are probably a handful who are on a similar level.
2. I hardly think my reputation would crumble over losing a 1v1. I honestly won't care, I've never cared about losing as long as I lose fairly. I've always valued sportsmanship over winning.

Wow 2 pages overnight, + other thread in general=most talked about player in r3ne.

Think about it, you've gone over it with me yourself, you said you play more than atleast 2 games every single day, and considering how long (or short, idk) cw.cc has been going on for/you've been admin there you have played a SHITload of games. And considering you yourself, also have admitted to the fact the more games you play, the better you get, the fact is i played a few maps yesterday, but before than didnt play for a month, you know how fair this is going to be.....I think it was a while ago but I personally asked you for a 1vs1 just to see how big the advnatge would actually be, and instead of playing you said you were going somewhere so you explained it in more detail, anyway you know what you said.

So you're saying no based on the fact you think you'll lose? I've never said no to a 1v1, or any game at all for that reason. And you constantly bitch about other people "dodging"?

No, I genuinely don't, because you're making it up. Find the post where you asked me for a 1v1 and I declined. While you're at it, find the screenshots of you beating Pirate two games out of three. When you've done that, find the screenshots of Wiggles when he was in TRPM "Owning" me two games. When you've done that, find the screenshot of you beating Wiggles.

Oh wait, you can't find any of the above, because you fabricated each and every one of them. I'll gladly admit being wrong if you post the evidence, of course.

trooprm02 wrote on Fri, 04 May 2007 15:58 also because you haven't said anything else about my theories at least says you know I'm correct in saying you would have a huge advantage, and since you've said similar things states it's true
