troopr02 finally shows himself in my IRC, and refuses to play in our CW which Koss2 and other clans have no problems playing in

Then he suggests that we play in a server with 2500 ping? Kinda weird.

Im sure he is gonna flame me but hey what the heck.

if he is worried about spying or what ever. One of the Cw.cc Guys could host. they wont help either side cheat or what ever. But if my clan is gonna fight him we want solid proof of a win or loss.

Also whats his deal with all the info being private. i can understand him pm'ing the pw in private.

Hopefully this game you as much of a laugh as it did me.

Lol

There should be a stickied flame fest going towards troopr02. That thread might go on forever!

Anyone agree?
