This guy... man... I want to play this thing so bad.

WARNING: Contains music that is not mainstream rock. People intolerant of others' interests probably don't want to see this.

Gates to Numeria is a bit more weak-sauce than the other, but I like it just as much.

Andy McKee is a brilliant player. He has a very impressive back catalog of tunes.

My mate has a CD of his work. If he ever remembers to bring it to college so I can borrow it I'll upload a few for you all.

Awesome. Dad knows a guy at work who's supposedly friends with him. Dad never bothered to look him up until recently.

I talked to my music tutor at college today and it's called a Harp Guitar.
