Here are a couple on other things That I forgot to say. We are recruiting for these games right now.

Renegade  
A Path Beyond  
C&C 3  
Reborn

So check us out. Here is more on are clan history.

Clan history (writing by -SF-Wyzenguy6):

This clan first started 4 years ago by a man formerly known as Psych0. It was called Total Domination (TDxClan). I was a part of the clan and felt very accepted. The clan was a fair size (roughly 13 members). But some personal and financial troubles caused the clan's decline. I thought that was the last I'd ever hear of them....

About 9 months later, I got a message from my old boss, Psych0 (who had changed his name to xadet). He asked me to join his new Renegade clan called Superior Firepower. I was glad to join and glad to see a couple of my old buddies again. During that period, the clan consisted mainly of 2 games: C&C Renegade and Counterstrike. Although they were two different sets of gamers, they got along very well. During this period, three new recruits (mdluffy, rCadre/IonicObi, and bahamut) joined the clan.

But, once again troubles encountered xadet and he gave ownership of the clan to mdluffy, who offered to purchase the site domain in order to keep the clan alive. For the past 7 months or so, we have changed domains about 4 times, and had much trouble recruiting clan members. But this past month has been the most progress I have ever seen in the clan's history.

I would like to thank the other three 'senior members' of the clan. bahamut, for being such a nice guy, Ionic for your determination in getting soldiers for the clan, and mdluffy for being such a great leader and sacrificing so much to try and succeed in returning this clan to it's former glory.

It sounds kind of cheesy, but, I'm really happy to have been with the clan for so long.

Contact me or Superior Firepower for any more information.

This is also for all the Korean players out there too. This is for them.

Thanks again for your time.

One Xpert is right. I see a lot of clan out ther with the same tags but they are not in the same wording. We are Superior Firepower that is way dirrent then Spartan Forces. Plus I have copy write laws on my stuff and a Patten. So I own the name. Second the background music is the end theme of the Brotherhood of nod when you beat GDI in Tiberian Dawn. So you are the first person that dose not like it.

Well to be nice I am dropping all of this. Because it is total going off topic and second this whole thing is stupid. This is a recuiting area. We are trying to find caring and nice people to join are nice clan. So we don't want your spam. Also if you don't have anything positive or not looking to join a clan then don't post here. Thank you.

It is something that when you want to own something you get a thing called a patten so no one can use your product or name. If protects you from people stealing your stuff. But Like I said I am dropping this issue becaue I know how things like this go. They start out nice then they turn ugly and people get pissed off at on another. So that is the end of this convesation. I want to stick to my clan.

rofl, try patent and also you don't have one - you also don't have copyright laws on your stuff.

and wtf are you talking about "not real for 10 years" lol

Quote:A typical patent application takes 2 to 3 years to grant, we can accelerate the procedure at the applicant's request. There is a maximum time limit of 4½ years from the application's earliest date.

I hate to say this but yes I do have a copy write law on my site. Think you need to learn to read idiot. But I am not going to talk about this shit anymore because people like you think you know everything.
