I posted here a few months ago about this mini mod, it came with 3 maps, had enhanced snipers that could jump higher, breathe underwater etc.. it was a bit silly, but a fun break from the norm. Problem was it crashed the FDS when the map changed at the end of a game. I had the same problem with another project of mine and after pulling my hair out for about a month I gave up and went off to look for another game to map/mod for. Anyway, I recently found out that since the 1.36 patch, my maps no longer crash the FDS, so I re-released the Sure Shot mini-mod at [www.cnczone.net](http://www.cnczone.net) Anyone who enjoyed it, or just wants to try it out, feel free to join Skint's florida server on WOL. It will be going up shortly, only 8 players max, but the maps are designed for semi smallish games anyway. The map is also available at Renegade Generals, Transnote's site so go grab it and give it a shot. what else have ya' got to do?
