With that many errors you're probably missing a } somewhere. As for the windows.h error, you need to download the Windows SDK from the Microsoft site.

well i looked at the stuff above and below that was the same

and ty i will download that thing

1)EDIT: the Windows SDK can i get a link because im not sure what it is and in Google got lot of sites that i didn't really understand what i was really looking for

<http://search.microsoft.com/results.aspx?mkt=en-US&form=MSHOME&setlang=en-US&q=Windows+SDK&x=0&y=0>

after i check it out i fixed some

i think all i need now is that file

----- Build started: Project: scripts, Configuration: Release Win32 -----

Compiling...

crate.cpp

aow.cpp

.\aow.cpp(19) : fatal error C1083: Cannot open include file: 'windows.h': No such file or directory

Generating Code...

Creating browse information file...

Microsoft Browse Information Maintenance Utility Version 8.00.50727
