hi,

i need help with adding some cool stuff in my game
but i dont know anything about C++ or VB

I hope there is someone that can help me build things for me.
if you know C++ and/or VB and you wanna help a Newbie out, please leave a message or contact
me.

Getting Visual Studio C++ express edition + the windows 2003 PSDK is a good start(they are both
free).

Then google or search for some tutorials and start small. Renegade is pretty complex compared
to what I'm starting on. :/
