Remeber the days when I re-accused stonecold of cheating, after his clan leader (WG)sm0ke, got caught cheating, as did another member, {WG}at0mic? Well, the BiO clan accused him too, but no one could actually prove where he was getting this unfair advantage from, well todays the day.

http://24.239.216.14/ubb/cgi/ultimatebb.cgi?ubb=get_topic;f=33;t=008608;p=1

^have no idea how long hes been doing this for, but has been caught only untill recently, he is the 5th person to talk shit and have been caught cheating, ROFL. GFG

P.S: just read the funniest shit in that topic, HE FUCKING LOST that game too, hahahahaha

P.S.S: stone has been logged in to the smak forums for longer than 1 hour and 30min replying to posts, saw him on these forums instantly after I posted this, expect a reply(excuse) soon

just for clarification trooprm02, the cheats you accused stone of were *cheat name removed* damage hack things like that, this was simply because of the fact his attitude is pure shit and he cost us 2000 points for being a fucking douche and using irc, granted its still cheating, but to my knowledge you never accused him of that "cheat"

lots of people suspected him, but since there is no direct proof, I wont get into that. But this is a HUGE step because they finally caught him and who knows how long he has been doing that.

He was kicked out of our clanwars.cc clan for a piss poor attitude, and for cheating, using irc as an advantage during clanwars.cc matches. my 1 vs 1 with you stone is kind of on the back burner due to the fact you have already been busted in a public server for RGH, correct me if im wrong, that is why your banned from renstations correct?

Yes we know your excuse was that you have the same serial as someother guys or something, but isnt that kind of like my brother was playing on my computer and cheated, it wasnt me excuse?

Oh and the racist part comes from heim being arab, he thinks thats why we kicked him out fo the clan. because we are just a bunch of mean and racist bullies.

And stone, core said Arab, which isnt being racist, now if he called you a "Sand Nigger" then yes that would be a racial slur, but saying your arab isnt a racial slur.

And where u get the whole im being racist thing is totally beyond me. I dont recall being racist towards you, if that was the case, you never would have been allowed in r4p3.

ROFFL, wow thanks for the entertainment, bookmark+1

OK LOL.

Please tell me how using Lan-Exploit/Using a mods nick = Cheating? Too my knowledge thats called Impersonation and/or being a prick.

I fail to understand how you can say someone was/is cheating using the fact he *may* have used Lan-Exploit.

As I posted last time you accused stone of cheating; BiO didn't kick him out for being a cheat but for being a asshole with his attitude. Would you like me to link you back to that topic?

So I log onto my server with the name trooprm02 that automatically classes me as a cheater? Yeah ok...?

I can't play Renegade? 1) I'm still waiting for this video that you have of me CHEATING (Been like 2months now) 2) I'm still waiting for my 1v1 that you dodged. I can link you back to that thread aswell if you'd like.

Hahahaha so you took the video I posted of a cheater and tried to use it against me? Firstly, did you have my permission to use my video? Secondly, I never said that I DIDN'T use what some people call advantage skins. Its not cheating, I could change the stank colour to bright pink and I still would NOT be able to see that stank any further away. You know why? Because the skin doesn't change the distance variable thats hard coded into the objects.dbb or whatever file its under. If it was cheating that RenGuard will block it full stop. Not have an option to block all skins. You still haven't provided a VIDEO of me CHEATING. You know when people kill tanks with one shot or have big head, etc...

Um, did I have your permission to use that video? fuck no, I can do what ever the fuck I want with non-copyrighted video's saved on my hdd. Thats cheat, 100% pure cheating. In most minds not as bad as using something like bigheads or an aimbot, but to me and many others it is. 2 things:

1)what is a cheat? something that gives a player an unfair advantage right? (well you dont relize the lan exploit is cheating so actually im not sure with you....) If you didnt know, the answer is yes.
2)do those skins do exactly that? YES. Your fucking over people like me who dont need skins to help me play better than you, and I can actually join a pure mod server, can you (ROFL, dont need to answer)?
3)reasons like this skins like thats have been banned on various platforms (renguard, cw.cc etc), but im guessing you dont use renguard.

good day sir

So tell me EXACTLY how using Lan-Exploit is cheating? Also tell me how my stank skin gives me an unfair advantage. The only advantage skin that I have is my C4 and my stank sound. And yes I do use RenGuard for what it worth.

Hello? Let me guess you're going to ignore me again? Ok. Firstly whats the problem with Direct Connect? Its the same as GameSpy just without the server listings and chat room. You can use RenGuard with direct connect.

So how about our 1v1? I'll even ask someone prehaps Crimson or some such to set up us a NON-IRC server with BIATCH and whatever else installed just so you can play without the fear off me cheating. Also I'll go pure mode if you wish and play with my WOL nick. You now have no excuse to not play me.

Show the other 20 minutes of flaming about Direct IP connecting, not running RG, and whatever else got up your ass and made you not want to 1v1 me. if you had have just accepted there probably would have been tons of time.

Even still, there was half an hour until I had to be at work, we could haev had a 15 minute game then. But you left too quickly didn't you? You took that opportunity to make it look like I was dodging.

Meh.

PS. You think I've never been in a clan? I have only ever been in WOL clans. Yes, WOL! I have actually used WOI before and yes, the exact nick you see me using on this forum is NINE LETTERS LONG! it is the same nick I registered on WOL the first day I played Renegade online. I merely dont use WOL because I lost my CDkey and the Keygen ones don't let you use WOL. -.- Which reminds me, your site has a link to ones that are supposed to let you play on WOL but its broken, can you fix it? i will ofically vouche for stone using *cheat name removed*because of the 1 vs 1 we player, it was obvious, as well as the evidience from renstastion. Considering *cheat name removed*randomizser your serial hash, its pretty much impossible for a player running *cheat name removed*adn a player not *cheat name removed*to have the same serial. So the fact thier both banned from the same server for *cheat name removed*its not dispotuable the fact that stonecold was running *cheat name removed*as well as running the *cheat name removed*inour 1 vs 1 considering his story cahged about three times.

hey troppm02, ask stone cold why he chaged his story about 4 times on ts on the map Volcano, about how he didnt kno I was in ref tehn he said he seen me go in ref, tehn he seen mego out of ref and he seen me go for his art and he een me die courtesy of a heashot on his arty, but yet he seen me go in his ref while he was past his ref past his power, according to him his ref only had 4 bars left hen my both my times went off, so how wouldnt that kil his ref?

something just doesnt add up with this kid, he was bannned from renstations for RGH, e claimed same serial, but *cheat name removed*randomizes your seiral according to admin at renstations, correct me if im wrong, so basically this moron accuses me of cheating yet gets busted himself.

I've been keeping my mouth shut and I usually don't read these forums unless I have free time but God, after reading these forums and looking at some interesting and non-interesting topics, I'm getting real sick of this fag, and I'm talking about Trooprm02. I don't usually curse in forums, but my goodness, FUCK UP BITCH.

God you're fucking annoying. You never just SHUT THE FUCK UP for once. You keep trying to get some e-credit and end up being dumped with facts and burns. Go fucking dig a hole you pathetic piece of shit.

You dodge people more than a baseball player earns on his paycheck. You talk more shit than the average gamer. You suck ass at Renegade more than you probably do at Pacman. And you're Renegade YouTube videos suck dick. Where's the videos of my clan kicking your clans ass 2 times then you leaving in the middle of the game and also begging to play on C&C_Sand.mix. And where's the video of us SUPPOSELY playing you guys and losing? I would love to see that video, then again, it doesn't exist.

You fucking call this wall hugging? http://www.youtube.com/watch?v=ZbctxM2_Eml - God, my fucking 6 year old brother can hug at this game better than your dumb shit. Play me 1 v 1 sniping, I'll fucking show you what hugging is. You can play me 1 v 10 for all I fucking care. Bring the rest of your shitty troops {trooprm03, trooprm04, trooprm05...} Oh wait... NO POINT BECAUSE YOU'RE JUST GONNA FUCKING DODGE AND TRY TO GET OFF TOPIC ARE YA? Go fucking suck an Arty.

I can't choose whether you're a dumbass like Peter on Family Guy, or you're just fucking brainless as the scare crow on Wizard of Oz. For the last 15 minutes I've been browsing these forums, I found 10 topics of you dodging people's 1 v 1 unless it's a low ranked n00b clan then talking shit on other stuff. I hate people who talk shit then act e-hard. You're not impressing anyone. You're making them laugh at you. I guess it's good to have you around just to have some good rene-jokes eh? Then again, NO ONE FUCKING WANTS YOU.

Oh and one last thing. Did you Fraps and youtube this? Or you forgot to subscribe for another month of extra YouTube space?

GFG Troop, anything to say to this?

Why dont you click "uninstall" on Renegade, shatter the CD Via microwave, and click the little X button in the corner of your browser.

regardless of what you think of troop, I personally cant stand the guy, but he is right as much as I hate to admit it. Stone was caught cheating, in clanwars.cc as well as renstations, renstations he was caught using rgh.

I haven't watched DBZ in 6 years. And you obviously don't know me to judge me based on my avatar. There's a reason for this avatar and why I use it. Was custom made by someone who I rely on for things when needed so it's in respect to him. But then again, why's it your business?

Took less than 48 secs tbh. IRC scripts makes things so much easier. I don't see how that "fucked" me over...

No? Only thing I remember is your poor spelling and grammar and the fact that you dodge everyone who's ever challenged you (and your so called 'clan'). You never played us, but I guess you seem to believe so in your imagination. And I don't know what's with you and Visions (Atomicway) that got you thinking he's in DI? He's like your level of skill, garbage. But I guess it makes you feel better to think he's in DI because you defeated a n00b in some sort of 2 v 2. What ever floats your boat I guess.

Ya post them. Don't shit your pants when you find you never played us. And don't bother photoshopping screenshots. I don't want you to jump out your window with your mouse cord strangling you. While your at it, look for that video of you losing to us in sniping on Islands and you bitching to play on Sand because we wall hugged you. Also, hopefully in the process of your search, you find logs of you dodging us for City_Flying bridge snipe game. All true events unlike your barney imagination clanwars.

p.s:when i find the ss's, you find em here, maybe a vid too, di ont remeber. and your lucky we dont consider ourselves cw.cc anymore cuz it would have been an AR

Oh I hope you find a video too. Afterall, you do video tape every Renegade moment of your life if I'm not mistaken.

Oh yes we're lucky to not have a dodger in CW.CC!!! N00bs Bigd442 and Dax109 have more balls than you.

well after playing with troopm01 or whatever today in a public server, if hes any example of what trpm clan plays like, this troop guy would stand no chance in any clanwars.cc matches, hell they couldnt even take on BA clan let alone nyone in the top 15-20

Basically, the words you're looking for "Public AOW N00bs". I can't wait to see his suppose wins against DI screenshots. Get ready your photoshop detective skills.

I wish he signed up for the AOW 1 v 1 Tourny on CW.CC. Would be a tournament to remember and laugh about.

troop, DI and r4p3 pretty much go game for game when we play eachother, and youve dodged me for the past month, so the fact of you beating DI with your clan in a 2 vs 2 is like 1 in a 100 <----- trying to be reasonable.

^ROFL, then I went to your aow server, and got banned BY YOU, because I was looking for another cw, then you said something along the lines of "you suck", I told you we just raped your joke of a clan in a 2vs2 aow cw, then ban.

The whole time of these events your joke clan was #1 on the cw.cc ladder from the begining of the month from playing clans like bbf and cfg lmfaol

You played watereeee a sniper player that plays ren like once a week and Zamboni the most inactive and weak member in the clan who went to BBF. You must be proud lol. I was expecting you beat people like Kil and Tunaman but that would of been a joke.

Where is Atomicway in these screenshots who you claim was apart of [-DI-]? Guess you see the truth in that.

Come back when you face the better players of [-DI-]. Maybe you'll see why we're in top 10 every month.

R4P3 has played DI I dont know how many times, only a few times was zamboner ever a part of any game, and Ive never seen watteeerree or whatever his name is in an AOW match, EVER.

I don't bother to monitor what trash players leave and join DI, they were in your server, we asked for a cw, we raped em. End of story.

They suck? Thats makes your joke of a clan look even funnier, why recruit them then? Exactly. Then what happened when I came back and asked for another game? Oh? you banned me for asking because you YOU knew it would be more rape? Case closed, again I point to the title of this thread

Watereeee is a pro sniper. Face him in that. I didn't recruit him for AOW. Zamboni is a friend of Vovatoro who is in DI. They are tight friends. But now Zam is in BBF. That's why I recruited them.

I banned you 'cause all you did was talk the whole game and dodge everytime our pro players ask you for game. I ask you personally for clanwars even 1 v 1 yet you dodge. n downs

Incomming dodge now, don't ignore Surth's post above this.

What happen to the 1 v 1 match against Spooky? What about you kicking him from game cos you didn't know who he was and you thought he cheated. n downs*2

How bout entering the next cw.cc 1 v 1 tournament? You'll get owned in the first 5 minutes. You might even lose by basekill.

You act like your the big shit in Renegade. You're just a straight up dumbass looking for attention over a 5 year old game and hoping to get e-cred off these forums. FPS Doug has more common sense than you.

I don't know why you bother playing Renegade. You suck, and you call other people a joke. Look at your forums, it's practically only you posting.

You claim you made the Crazy 8 Renegade mod. That's false. Not that it matters, it's nothing special. It's hard to believe you made it anyways considering you suggest and ask the most dumbest questions about the SSAOW and SSGM mods and yet you come up with this.

You sit in a game recording (FRAPS) everything you do. Then you put together a video combined with what other people made and slap TRPM on it. How bored are you? How far do you go before you prove a point that no one gives a damn about?

Do yourself a favor and stop living in the basement living off your mother's lunchables and gogurt.

In BR (which is the obvious choice imo) !Kick is a 24 hour WOL Ban from the server.

Wrong, !kick is a 24 hour WOL ban, and with BR you can remove it at anytime using !allow, but otherwise, the ban only expires when the 24 hours is up, AND the server must restart

if you took the time to look at the SS it's fake, he even posted the real SS which shows he doesn't use rgh, plus in close examination, it was spaced wrong, and off by a few pixels, so whoever got that photo faked it because he has the same SS 100% same with no *cheat name removed*symbol.

You're retarded. The file that stonecold posted that was clean didn't have a comment on it about being used in a photo editing program. The one that had "[RGH] 1.3.3" on it actually had a comment that it had been edited by photoshop, and also the *cheat name removed*logo was a few pixels off from where it should be.
