Well nightregulator turned into a completely different thing... I did not get a screenshot but it said in the quit message: [NR] NightRegulator - THE APOCALYPSE HAS ARRIVED - v6/6/6 Is Now Offline.... and another message says the same thing for what the server is running... I have restarted nightregulator to fix this. but i'm asking why this happened.

This is NOT the Night Regulator forums, If you have any questions or concerns, Please take it to the AOHost forums as Night Regulator is a product of AoHost.

I like the do you like bums? I like cheese too

Its sad that n00bs like that use a bot & then they say shit about bot/maker

Edit: LMAO you smell of poo

lmao yeah.

if u type 'NR SUCKS' into the chat box

it puts all that crap on it lol - lil joke thing i added years ago

Awesome! I found a easter egg!

What's the passcode thing?
