Hi everybody, i'm a new guy that is interested in moding things just like the guy that are currently making cnc reborn or at perfect project mod.

i want to start small and work my way up to more advance stuff, but im kinda lost on how to even start making a mod.

can you give me links of the stuff i need to make a map on cnc renegade and help me out on trying to make a map .

ty

Go to www.renhelp.net and check out some tutorials. Make something small and work your way up from there.

The files should be under downloads to get started modding. You need Level Edit, Gmax or 3ds max (7 or , and maybe photoshop. That's what you need to make a map.

If you want a guide to Level Edit then you can drop by here. I'll be releasing my orientation soon on RenHelp.net (still working on it).

http://www.renhelp.net/index.php?mod=Tutorials&action=view&id=95

This is such a great Mapping tutorial with RenX.

It's advanced RenX stuff for newbies at mapping.
