Listen here you fat shit, fuck off with my signature.
And change my fuckin rank back away from "Viva La Resistance"
I find it fuckin hilarious that you sit at home changing peoples Signatures, and ranks.
Do you get a kick knowing that your making people like you less and less?
I edited my signature back, but for those who did or did not see it- it had the Image-
Renegade-
We know Drama.

Your being so childish its not fuckin funny, what gives you the right to edit my signature? Don't pull the "Im webmistress, I can do what I want" bullshit.
Cause thats the only excuse your lard ass has against this.
You hide behind that one statement, as you have no other means to justify your actions.

Well? Let's hear the reply from this one, I expect this post to be edited to, which is why im going to save it, and post it in a few other forums too.
I think it's bullshit that you think your god around the community.

changing a persons account around rly is childish. instead of doing that why not bring up your problems in personal msgs or something its always said around here that if people are arguing about shit in threads to take it to off the threads and keep it to PMs. Instead of abusing your powers.

Not to defend any of the changes, but I'm thinking Blazer did the signature thing. He seems to enjoy the overkill of the "We Know Drama" bit, but I don't doubt that she changed your titles.

This is definitely something I completely disagree with the administration about. Just because you CAN doesn't mean you should. I can understand editing his signature if it was malicious or inappropriate, but I noticed that it was neither. As for his title, I still think it should have been left alone.

I don't agree with how cheeky and the rest have been handling this whole situation, but I don't feel that the forum administration has any justification to sink down to their level. Sure, you guys have every right to be as childish or mature as you please, since these forums are yours, but this

childish activity just shows that these dissidents aren't as wrong about the administration as others would argue.

As for your arguments, cheeky, quit the childish name callings. Just because they dropped down to your level doesn't mean that you have the right to sink down even further. You all could benefit from growing up and just leaving these forums. Nobody's listening to your childish revolt, anyways. You're just making everybody tune you guys out rather than listen intently.

Now that I'm cooled off a bit, I thank you for somewhat agreeing with me. Considering the fact, that I wasn't being a malicious prick like the others were, I don't see why I was targetted like that. Next thing you know though, I'm going to be told I was lying about this whole thing. I can see it coming now.

Edit:

Yea, the name calling may have been a little much, That's usually not my style...that's more or less ACK, Troop, or Kinghigh1 . Sorry for the childish name calling, but either way, I think it was complete bullshit how it was handled.

You think calling someone fat while saying they're sucking their boy friend/fioncé off is the cool and mature way of resolving an issue?

I bet you were pissed, but saying childish things is begging for more signature and rank changing.

are plenty of reasons not to care about a silly argument like that. For one, its the bloody internet. I say if you get into an argument via text on a message board and it goes on for more than a few days, you should go outside and get some air. Also, I would leave. Why? I agree that right now we are arguing our points, but its in a civilized manner. I also agree that you should voice your opinion, but an argument shouldn't end up like the one recently. Especially when it gets to the point when threats are being made.

people can live without video games they just choose not to because it is a way to destress after a long day. and the message boards, like this one, go with the game. Unfortunately now the person who runs the message board has become irritated with one person and is now breaking their own forum rules. the rule being to not harass any members, and by changing his account thats exactly whats being done.

I'm sure they listen, but when you're in a heated argument it might not exactly "register". Plus, when someone has their point and they're standing on solid ground with their argument, they aren't likely to have an open mind.

Honestly, leaving is the solution. For two reasons: first, you'll no longer have to put up with it, and you can put it past you, and second, if a lot of people are leaving, she has no choice but to stop doing what's damaging her forums if too many people leave. Forums are only successful if it has a user-base to drive it.

Plenty of people have said "bad crimson," but there are also people who are willing to defend her. They're brick walls.

Having an argument with someone doesn't mean you SHOULD go off on a stupid tangent. The worst I do when I get in a heated debate is call people like puddle_splasher a fucking idiot... which is true, mind you!

The issue ultimately comes down to whether or not it's that big of an issue. If it is that big of an issue, leave and make your statement that way. Acting childish only reinforces the (incorrect) notion that they have to run their forums like that because you are nothing but a child and have to be dealt with as such. Treat your adversary with respect, and they'll either do the same, or they'll be exposed for what they truly are. If you truly have this big of an issue with Crimson and Blazer, be the bigger person and let them expose themselves, otherwise you're just an asshole who's out to toot your own horn.

Say you are the owner of a store. You get one person that comes in and argues with you that your service is complete and utter crap. You then start banning people from your store that complain about it. You keep doing that and soon enough you have less and less profit coming in because you banned all your customers. Sooner or later, you better stop banning people and make your services better or you're going to go bankrupt.

I think JBall's, or erm, "cheesesoda's" point was the last line. (Sorry, I just liked JBall a lot better)

People who think your service is crap are not customers. Do you buy crap?

Let's say I open a CHEESE store. I sell Cheese and that's it. And a customer comes in all the time and says CHEESE FUCKING SUCKS GOD DAMNIT YOU FAT FUCK YOU BETTER START SELLING GOD DAMN FRIED CHICKEN. If I ban him I definitely didn't lose a customer. Did I? I lost an annoyance.

Also put the shoe on the other foot? I DID have a disagreement with Crimson and the end result was I am banned from mIRC for a month. I'm not happy about it but I am dealing with it because in the end it is the way things go. I would consider that a lot worse than having my signature edited or my title changed. You've brought forth the fury of hell over some really dumb cosmetic changes. You need to pick your battles man. You obviously can't win this one and if you went down fighting to get whatever the hell you people want, a new leader or something or other... At least you could go bolster up your story and get your cronies to say "Wow man you are a hero for standing up for that!" But this? "Renegade: Defender of shit most people don't look at".

"Crimson" This forum will be, for all intents and purposes, unmoderated. Though these forums, and also the internet, do not guarantee you freedom of speech, American or not, you will pretty much have it in here, so long as it's not abused. You will be contacted privately if you get out of hand.

This whole debarcle should never have resulted in any "Vive la blah blah blah" titles anyway. If Crimson doesn't want to follow her own rules and contact us privately then I have nothing to say to her.

god has smiled apon you this day
the fate of the nation in your hands
and blessed be the children we (or be)
who fight with all our bravery
till only the righteous stand

you see the distant flames
they bellow in the night
you fight in all our names
for what we know is right
but when you all get shot

and cannot carry on
though you die la resistance lives on

you may get stabbed in the head
with a dagger or a sword
you may be burned to death
or skinned alive or worse
but when they torture you
you will not feel the need to run
for though you die la resistance lives on

Then they cut your dick in half
and serve it to a pig
and though it hurts you'll laugh
and dance a dickless jig
but thats the way it goes
in war you are shat upon
though you die la resistance lives oooooooooonnnnnnnnnnn

I can imaging blazer sings this one in the bathroom:

Bombs are flying
People are dying
Children are crying
Politicians are lying too.

Cancer is killing
Texaco's spilling
The whole world's gone to hell
But how are you?

I'm super
Thanks for asking
All things considered
I couldn't be better I must say

I'm feeling super
No, nothing bugs me
Everything is super when you
Don't you think I look cute in this hat

I'm so sorry
Mr. Cripple
But I just can't feel too bad for you right now.
Because I'm feeling,
So insanely super.

That even the fact that you can't walk
Can't bring me down

(Background singers):

He's super
Thanks for asking
All things considered
He couldn't be better he must say

(Blazer):

I'm super
No, nothing bugs me
Everything is super when you're
Don't you think I look cute in this hat
These little pants, this matching tie
That I got at Merv's

I'm super

(Background singers):

In the barracks and the trenches as well

(Blazer):

Stick 'em up.

(Background singers):

This thread has forced the collective maturity of this forum into negative numbers.

I didn't change a damn thing. I came straight home from work yesterday and went to bed. I have far more important things to do (like sleeping) than editing random peoples signatures. I suspect it was user error and you tried to add more than one image to your sig (there is a limit of one) and you thought it was saved but it didn't.

Either way I had nothing to do with it, sorry to dissappoint you.

EDIT: P.S. Call my girlfriend a "mean lady" again, and you will get dealt with. Talk smack in response to this post, and you will get dealt with. The best thing you can do is shut the fuck up and go to your corner and be very, very still.

In fact, I'm just going to fucking lock this thread, as I don't want to have to bother listening to the tards who will cry power abuse for banning your ass, and will actually have the balls to argue that its okay to make threads calling the forum adminitration names like "C U N T".
