I'm looking for a renegade clan that is more like a group of friends to play together than a competitive clan, this doesn't mean i don't want clan wars, i can go to some sometimes.

My way of play i think its just repairing and attack from far with an artillery vech, i can also sometimes go in APC rushes. I prefer in follow the other guy's plans than just make my own lol and i really sux at sniping so plz don't ask me for snipe

For clan wars as i said i can go to some, im available in Europe Time
since its a bit difficult to me to be in a clan war vs with a US Clan.
I usually play on Kamuix server and RPG servers, i also go sometimes to the UNRULES new maps server.

best bet is to find a server and get to know the guys / clan that run it before u decide to join.

Good Luck Finding A Home.

NE's recruiting... we're not a completely competitive clan, we're more like a good group of friends. The clan's about 4 years old, and we have members from all over the world.

If you're interested, visit our forum... http://fobinator.suddenlaunch.com Go to "Joining and Recruiting" and read the "Before you Join" thread.
