Wouldn't it be funny if you saw someone ingame using this 'cheat'.

What i mean is, someone should create a damage hack that lowers all weapon damage, and even accuracy, then post it on some cheat site then see how many n00b cheaters download it.

TO make them think it is amazing, when you post it on the cheat site, label it as 'latest damage hack even BIATCH cant detect!'

I hope if someone does do this, i see some n00b ingame with it XD

Hilarious idea, but it doesn't really test their IQ at all. Besides IQ is just an intelligence quotient and is only viable when a person is below the age of 18 or something.

BIATCH would still detect them

if someone did do this, it would be funny if you put in biatch to detect if damage has been lowered so server owners can tell everyone how retarded a player is.

Still, what are the odds that stupid cheaters check this site?

it may only work on a handful of cheaters... well maybe one, but if even one did it it would be HILARIOUS

I think if it auto detects damage hacks it bans them on sight. Or informs the others of the matter at hand.

You can't get 4 million: the tiberium would stop. He just cheated and put the starting money higher.
