The screenshot shows a Windows XP desktop environment. In the background, there is a chat window titled 'mIRC' with a list of users and messages. The main focus is a Windows Explorer window showing the contents of the 'Renegade' folder on the C: drive. The folder contains several files, including 'Game2' (5.27 MB), 'keycfg' (52 KB), 'language' (44 KB), 'scripts2.dll' (2,040 KB), and 'cp1readme' (7 KB). An error message box is overlaid on the Explorer window, stating 'Renegade has stopped working' and providing a 'Close program' button. The taskbar at the bottom shows the 'Renegade' application running.

Name	Date modified	Type	Size
bhs.dll	05/02/2006 9:52 AM	Application Extens...	180 K
