If you want use standard ports try set these ports:

UDP 4848 - standard communication port for Renegade
UDP 25300 - gamespy query port

i forwarded 4848 and 25300 though im using wol
i still ain't seeing myself in all seeying eye nor in rengade on the westwood/xwis server

with gamespy i have no problems works 100 pct
with wol-xwis the server comes online but isnt scanable nor accesable, i have tried a direct link so
no router, no firewall,
still didnt work

i used the same login for the server and the game
so i couldnt see nor acces my server- all seeing eye only seems to work for gamespy

yes i saw your server on wol

name was joel1 and hostname jeeebeee or something like that.
