Just lately, I have been gettin a load of emails. The wierdest thing is, they have the same stuff that is on these boards. It's like ym inbox turned into a message board! For example: I got an email that said "GDI and Nod outposts blah blah blah..." if you look at the bottom of this page, you'll see that same topic. And later I even got "RE: GDI and Nod outposts blah blah blah...". Why am I getting emails from ww's board and how do I get rid of them?

it's a mind control experiment - you failed. sit still - with your hands away from the keyboard - the men in red will be to collect you shortly. thank you and have a good day... *beep* this is automated reply - for the people who do not understand what spam is and how it works *beep* you got on someone's email list - this board doesn't send email - unless you choose to in your preference's --- and then only admins can.
