My name is from The Fairly Odd Parents. There's an episode where Vicky brings her dog to Timmy's house while she is baby sitting. His name was Doidle. I was like oh wow that is an awesome name. I took some licence with the spelling however because I felt this way looked cooler.

My first nickname was Go-Stuff. It was back in the days of Internet bubble companies and I was

14. My friends and I started a website called Games Obsession. GO = Games Obsession but also the first two letters of my last name. Stuff was added to make it more Internet-like'ish .

With Red Alert, I played with Go-Stuff as allies and searched a more Soviet sounding variant, which became Goztow. This became Gozy later on (shorter). For info: my Yuri-nickname in RA2 was Gouzy (love it still!).

My nickname on Ren is Bl4ckDmon,

I'll brake it down for ya'.

Bl4ck - Black was taken.. :\ So a buddy suggested replacing a with 4, The Bl4ck also means evil.. someone who studies the dark arts, You know the way people use Black for "Black comedy's" or "black rose" I used Black for evil-ness.

Dmon - It's demon shortened.. I'm a evil demon!

Damn 9 letters only for your nicks.

But don't worry - I'm not some devil loving crazy person.

My online name (for everything!) is Starbuzz.

It all happened with the remake of Battlestar Galactica back in 2003. I instanly liked the super-ace

Viper pilot Kara Thrace...her callsign was Starbuck.

Read more here: http://en.wikipedia.org/wiki/Kara_Thrace

I really liked that callsign but was not satisfied with the "buck" part. So, I kept thinking very hard of an alternative until "buzz" came into my mind. And I thought "Starbuzz" sounded pretty terrific! The name stuck for good.

"BuzzOfTheStar" is just the name I registered here with and as you can see, it's a rip-off from "Starbuzz."

From the deep recesses of nothingness, I thought of the word "Magenta". It was taken. So the next word that came to mind is "Crimson". It wasn't taken and was therefore mine. It's worked well since it starts out with a "CR" sound which is the same as my first name starts out.

Since my favorite Blitzball move in that game was the "Jecht Shot", named after his cocky father, When the Guild Wars setup prompted me for a name I entered in "Jecht Scye." Been known on that game as Jecht ever since.

My name isn't very original. I first used it on the C&C Ammo forums and couldn't think of anything better when registering here. I chose M1A1 Abrams because that's what the GDI Medium Tank is according to the manual for C&C DOS.

On the Ammo forums I once used an avatar of a nice looking M1A2, thinking nobody would be able to tell the difference... but of course Aircraftkiller immediately drew attention to it while he was trolling the Reborn forums. Not terribly interesting as anecdotes go, but better than nothing?

Corporal

Flight Corporal (New rank, didn't have it when I was involved)

Sergeant

Flight Sergeant

Warrant Officer Second Class

Warrant Officer First Class (Me)

Nothing above that except officer ranks. Cadets can not be officers.

I was in a rock band a few years back, and we had a tradition of sorts whereby if one of us did something really stupid, he would be given the Spoon Award, and be obliged to carry a wooden spoon on his person at all times. It could be relieved by performing something exceptional.

I was the first recipient of the Spoon Award.

My first name on Renegade wasn't anything spoon-related, but when I joined TDRP (Jelly's clan, the Dancin Rat Pack - whose members had 'rat' at the end of their names) I took the name Spoonyrat, and later simply Spooky.

simy is short for simytiny which is random letters i typed when making a name for lineage 2.

It was a white dragon, now since I wanted a new nickname, I thought lets take that one. Sometime soon after that, I looked it up at google (idk why though) and I noticed that there where an awful lot of whitedragons, so I decided it would need to change once more. Because I was called evil at the time by StealthEye, I decided to call myself EvilWhiteDragon.

First name of me was 'Dutch Revan' (not rilly, but i had like those usual names at ra2) anyway, i

chose for it cause i played SW:KOTOR (1) that time, and i liked Darth Revan (main evil char in that game). I didnt liked copying a existing 'game' name, so i chose of what i am --> Dutch, so Dutch Revan.

After some months, i was addicted to Need For speed Underground, and i always took neon bars under my car. At that time i thought Neon would be more cooler, so i changed Revan to Neon.

Further more i got lots of Ren accs (Not on Wol, but GSA and ASE based) and other games where i got names related to German Tank names, cause im a fan of German tanks in WW2 (no, im not a nazi, but imo german tanks looked very cool, so i took names, same for there airplanes which had awesome looks too(Example is SdKfz171Panther and some other Fully names like PzKpfw6Panther etc).

Last name: ToxicRevolved, dunno why, there was something on the news about Toxic disaster and i was reading something about revolution, but i changed to Revolved (this isnt a ren acc though)
