Got caught cheating

All it says is

Quote:The logs of him bypassing renguard do correspond to the time of clangames, and I am assured the detection for it is 100% infallible. I see no reason to doubt that assurance, bearing also in mind that the last person the admins have had so many people complaining about was Grendork.

SoQAshy's banned permanently. -SoQ- loses half their points this month (getting away with it for a while doesn't mean you won't get owned when you get caught later, to answer the inevitable)

Any SoQ player helping him evade the ban won't get the usual 1-month suspension - they'll join him permanently.

Were are the logs?

My experiances with SoQ?

Source Of quality was the first place I ever joined as a community member online. I signed up on the forums after playing in the servers that several of there clan members run. At the time it was zunnie and gabber. That was the place that started me off on a pursuit of knowledge.

I aksed to join there clan, but they refused me. I was pretty gutted. But I signed up to another clan, and have pretty much near enough stuck with what spawned from that clan ever since then.

But I still pop in on SoQ now and then.

I'm pretty sure they are the longest standing active renegade clan, they are really nice guys.

Don't judge SoQ from one cheater. Most clans could learn a thing or two from how they run there stuff. They are genuine.

SoQ used to be a respectable clan, granted they didn't play clanwars much to my knowledge. Lately they've let at least one cheater in...

They also let a known cheater in(SoQReal/m0fire).. if you're talking about AsHy.

Don't judge Soq for one cheater in their clan.

We had Ashy banned for cheating several months ago but unbanned him due to no real proof. Ah well...

So 2 cheaters already and reports of other members like Lacostey cheating as well...I think the old members seem legit, but some of the people they let in over the last year have definitely ruined

their reputation on clanwars. Pretty much everybody considers them a cheaterclan over there...

So far they've shown no remorse and have blindly supported Ashy's obvious cheating and flamed people that rightfully accused him...makes you wonder if the clan's really anti-cheat or tolerates them as long as they win them a few clanwars. (I think their win percentage has gone up from a horrible 5-10% to almost 50% since Ashy joined)

Mexpirate's thread links to the thread where the logs are brought up.

Also, after he was banned I spoke to him about making a deal to rat out his clanmates, and in entire conversation he hasn't made a glimmer of an attempt to deny cheating.

The proof comes from renguard logs showing that he attempted to use a radar hack in game, this was stopped by renguard - these aren't public logs so you won't see them here, but they have been verified as correct from a reputable source.

SoQ always had a good reputation, but with Ashy cheating, allowing real/m0fir3 & Lacostey to play for them and supporting ashly blindly even though his cheats were noticed by basically everyone who played him (and really would have been obvious to any of their players playing with him) their reputation has taken a battering at least on cw.cc

Still believe the majority of the clan is cheat free and respectable, a shame they let the retards in tbh.

Originally posted by CrimsonRenGuard successfully detected SoQAshy's attempt to cheat so he was not in fact able to use Radar Hack on the clan battles in question, unless he turned off RenGuard and played without it, then I can't guarantee anything. The cheating in question also occurred before the latest *cheat name removed*came out, I'm almost 99% sure of that.

But hey, why not prove your supreme skills with the usual 1v1 request?
