I want to setup a single player (as in theres only one spawner etc) with narration. Whether it be displaying a texture or string i dont care.

JFW_Show_Info_texture? Dunno how to use it if it gets what i want.

Also the map is intended for unteamed players, so how can i make someone change their team to Unteamed when they enter a script zone?

Quote:edit:How can i make the player pause for a certain amount of time/like in the tutorial levels

Worked out JFW_Delay_Custom
