Buggies can easily kill a mrl if it can get in front or behind the mrl in time. A mrl can shoot right in front of it. Unless the mrl is long distance buggies can kill em easily. Opinions?

Yeah...also snipers are pretty good against them. The 500 credit snipers cause less damage but the MLRS driver won't know where the shots are coming from.

Once, I was doing this to a lone MLRS and then killed the Engi who got out to repair it. LOL...a SBH was able to steal it. LOL!

using secondary fire the missles seem to be more accurate... but if they home is sorta random, but more likely with secondary.

speaking of mrls, how do you b2b on field??

btw: stanks are okay against mrls, not my favorithe, but good if you surprise them

nearly everything can kill a mrls in close combat. but a smart mlrs driver let noone away from his deadly rockets.
