Hahaha, TD2 is gonna' rock so much.

Though, HL2 Episode 2 is the only reason I'm buying the Orange Box. :d

I would buy the orange box, but I already have HL2 and ep1, so I'll probably just buy ep2 and TF2 seperately.

Portal and TF2 comes with HL2:E2 regardless of the orange box or not...AKA Woot for me because I have every HL2 thing there is.

Okay, I thought there was the orange box, and you had to buy everything else seperate.

hmm well looks like valve canceled that idea. It was called the black box but they canceled it in may 07. I'm sure it wont be too bad though, they never screwed me over in the past.

It reminds me of that movie, meet the robinsons. Looks intresting, how well they can turn a FPS into an animation type of game is questable at best

The graphics are meant to look cartoony, lol, But the game itself will kick ass, As VALVe are exploiting the physics on the Source engine.

You can probably just buy them all separately on Steam anyway and download them on there.
