i am sorry for putting this message in the tactics and strategies

i last won 6 battles and lost just 1, then my rank went down while i won 5 more battles, do you know how this is possible

lol man

Its quite easy you played really shit and lost and not very well and won... therefore you didnt get much ladder and lost a lot therefore you lost points..

Or maybe you played in small games for the wins and big ones for the loses there are endless possibilities check your record at <http://www.westwood.ea.com>
