Ok i have two questions, the first one is when i load up level edit, it says fullmoon.tga is missing and doesnt let me edit anything.

My second question is about server commands. I wanted to know if theres a way to get a command for money, or a command to make someone into a certain char. Ex !givemoney Steve8274 5000 or !character steve8274 sbh. would either of these be possible on either BRenbot or NR?

P.S. im not sure if this is the right place to post this, if not someone move it plz

wrong section x2.

For all your !buy bob stuff, Use the luaplugin!

Download it from here (You need a FDS + SSGM)

Then read Here To know what commands are available.

Most importantly, PLEASE FOR THE LOVE OF GOD, read that topic before posting in the Support Forum for the LUA Plug in.

As for your level edit problems, Look at http://renhelp.net, or Post in the Mod forum.

Have a nice day!
