i just wanna see if any one has any funny stories from any cnc game, or stories of renegade noobs. ill start....

My funny story is from cnc generals zero hour. a friend of mine was playing some dude, and the dude was trash talking the whole while using all caps, and it was really annoying. he was abbreviating everything. my friend just said " watch this" a few minutes into the match..... he had 6 superweapon general particle cannons, and MANY aurora alpha bombers. when the dust cleared, the dude had only one arms dealer left. there was silence for a second... then "i hate you..."

One stupid moment was in cnc3 on a nod mission against gdi, it's one of the early ones, the base expansion area is too small, that when I build a ref at the edge of a cliff, my harvy fell off and fell upside down and dropped the credits on the floor, i still got the money, but every time it came to drop, it would fall off the cliff xD

one person you dont want on your team is "eyebugu"
he is a major noob. he'll yell "im gonna get you gdi" and one buggy will come over the hill on hourglass with a rifleman inside. or worse, two other noobs will join him. he dosent learn anything either.....

Funny thing in Renegade huh? I went to a n00bstories server today. There was like maybe 6 people. All complete retards. LOL.

The map was Hourglass and I was Nod. I bought an APC and killed their PP. Then I came back to base for refill and bought nuke and killed their Barr and Ref. By the time I came back with another nuke, someone on my team nuked the WF.

Then I laid a nuke at the AGT and started killwhoring with my APC. LOL...I was lolling so hard I almost broke my laptop keys. ROFL. Easiest game ever.

It was so funny as shit I forgot to take SS of the end-screen. Anyway, look at the rewards I got for that game ROFL!

LOL...I wanted to let the poor n00bs alone and have fun so I quit and went to another server. LOL.

Once I was joking with a nub in a mamy on field, I was a nod soldier and said i was gonna steal his mamy, he's like "ya right, sure you will..."

I tossed timed c4 on his mamy and he gets out to repair it, i hop in and he says "omg you did get it!" and i run him down xD

Oh nuubs we need them to sometimes enjoy ourselves.

So i joined a new clan, And I was bored, So I decided to join UNRules Fan-Maps server (The map Desert siege was the current map) and I love that map, To my surprise, I was Nod (Extra pwnage.), So I bought a SBH and a Nuke.. Then GDI tried to APC rush, But failed, A Havoc got vaporized by the Oblisk, So I picked up his Ramjet.

I then buy a Recon and drive behind GDI's base and wall-walk down behind the Barracks, And waited for a little while, No one was about so I plant my nuke.

10 seconds left, And a engineer comes around the corner, I said "ha.. He has no chance." so anyway, This engineer looks at the nuke, turns around and kills me with his repair gun. -_-

Then disarms the Nuke in 0.01 seconds.

I then say in all chat "bla bla is cheating.. He killed me with a repair gun and disarmed my nuke in 0.01 seconds".. My message fell apun illiterate eyes.. So I repeat it hoping someone in IRC will see my message, But to my surprise, 5 players called me a n00b and said, "It's a glitch." I rofl'd so

damn hard my floor broke. D:

Conclusion: dumb-ass players, Cheaters heaven, Badly moderated. :(

Thats why I say servers need 1 mod ingame at all times, because i myself have been told by players "so and so cheated when no mod was on the server" but then again if they run before a mod comes in to test, you cant be 100% sure if they haxxed or not unless you use some sort of anti cheat.

i was on jelly server map-pack, Cairo.... we had no hand, they had lost one of their pp and a agt, we lost an obby and our hon.

we came up with a plan: I was in a flame, my allies had 3 stanks.

i went right, trying to go around the ruins and through the passage through the tib field and around by their tib ref and silo. I got to the ruins, came round the wall, found a pic Sidney. she shot me ONCE and I instantly lost my 400 armor. then an orca and a ramjet sniper showed up and killed me... i tried to tell the moderators that that person cheated, but he just yelled at me "shut up and play, we have a bot, they can't cheat!" i was so mad, but when i posted on line i just got shouted at even more! "a sniper and an orca were shooting you too, they cant have cheated, ect."

my thoughts:

one: the sniper, if he was a ramjet, would only score 5 of my armor

two: the orca wasn't there till later

three: why didn't i see the blue tracker from the ramjet or the orcas rockets/bullets?

Conclusion: bad server, bad admin, bad mods, cheaters get away!

and now im gonna get yelled at by that mod if he uses these forums...

AoBfrost wrote on Fri, 07 September 2007 14:22Once Oh nuubs we need them to sometimes enjoy ourselves.

um... till that n00b is eyebugu, hes on your team, and he causes you to lose
EX:

the map: hourglass

The teams: gdi-good nod-noobs

Eyebugu: gdi

the scenario: gdi keeps stealing nod vehicles, and hiding everything behind the pp, gaurding them with three men, and only using the tanks if the base is under attack or if said tank is a stealth tank
eyebugu comes in and takes one of the light tanks, and gets it stolen, allowing a nod person to get an apatche.... it took hours to kill the apatche.

He should be banned from xwis for being that nub, I have never seen anyone as stupid as him. I tell him top buy characters and he ignores me. I say donate me for apc., he says donate him, 4 people donate him 200 credits, he buys buggies with them and waste our cash.

Or it could be a random veh from old scripts, before we updated, sometimes people would get orcas/apache on under, I remember seeing nod get a apache and own everyone, then when it died we were all glad.

but yes probably HG-flying or some other map

I noticed he spelled apache wrong lol

yes, i spelled it wrong

yes, he should be banned!

yes, i am ashamed to call him my lil bro!!

eyebugu is such a n00b. we wont use characters. he cant wait that 5 seconds to get the last 10 creds he needs for that vehicle, he gets a worse one! if his ref gets destroyed, and he wants a arty, and he has 449 credits, he'll ask for money, instead of shooting that annoying mrls that just got the ref!

who controls xwis bans?

edit: you may wanna leave if he shows up on a server with vehicle shells, he'll get his buggy killed so many times in front of their base that eventually the other team has all your vehicles!

On our server we have a crate called mutant elite sniper, that gives a sniper that takes 1/2 of a vehicles health when shot(only 5 shots though), maybe it was something similar?
