ive got 2 beacon peds 1 gdi/1 nodthey are outside the base the nod one works for only gdithe other doesnt work at all for either teami placed a gdi pp controller next to the gdi one and it worked but i cant destroy all gdi buildings to win now??so i was thinking of placing a helipad controller prehaps that one won't be needed to destroy all buildings? i just sink it in to the ground and theres no building thereim sure there is a better way but im just looking thru tutorials and ive seen that there needs to be a building controller close to the beacon zone and there isnt one next to the gdi pedany suggestions will help

I believe you have to have at least one building from each team to get it to end game. like barracks, and Hand of Nod

Only thing i can say is if you got it to work, and it does not afect game play, just go with it.
