I find redickulus that these (modarators) that think they are GOD. that they tell you how to play like the asshole [RG]riku5464, and when you dont do it banns you.

this is not right

YOU PLAY HOW YOU WANT & I WILL PLAY HOW I WANT

THERE POWERS SHOULD BE REMOVED.

AND ON TOP OF IT AFTER KICKING ME HE LEAVES THE GAME!

The people who have a server pay a lot of money for it. They appoint moderators.

If you disagree with the action of a moderator, you can always go nag on their forum if they have one.

I wonder what he told you, though, during which situation... If you were clearly team hampering, then a kick would not seem inappropriate.

PS: wrong subforum.

Out of curiosity, what constitutes "I WILL PLAY HOW I WANT" i.e. what was it you were doing which provoked him to kick you?

Omg I know j00, I kick nubs like j00 for playing lieky nub!!!!1

i would never kick someone for being nub, but if they did something like kill team vehicle shells I would warn, they do it again, another warning, they do it AGAIN, kicked, or if they kill team vehicles on purpose when your repairing, I would kick instantly, I have had people kill my own mammoth tank I went to buy a hotty, and next thing I see a sydney shooting at my mammy with her PIC, one shot later the thing blew up, I said donate me or be kicked because you killed my mamy, he said no, I used the money command to steal his money so I had 1500 and then I kicked him.

I think this guy was probably hanging around as SBH and didn't want to participate in the rush. Or something like that. So he got kicked.

If that's the case, then the server is assholic.

Based on your post I'm going to guess that you deserved your kick. Second, it is up to the server owner(s) to decide what is acceptable for a moderator not you. If you don't like how they run go somewhere else.

IMO, people should ONLY be kicked for obvious offenses. Things like cheating, breaking server rules, team hampering ect.

People shouldn't be kicked due to skill level, arguing/down talking to mods, not obeying an order from someone else (Like "Hey you, go mine" ... "No" Kind of thing) and as well as just being disliked by a mod. ect.

I agree with everything you said except one little thing. If a player constantly disrespects either a mod/admin or another player they SHOULD be kicked. People play on these servers for fun, not to be abused constantly.

I agree with kytten, if someone annoys you constantly, kick them, thats what I do, people will take my tank, I use !vkick since i own the vehicle, they get forced out, they keep stealing it, then when I am gone, they steal it, and when it dies, they refuse to buy me a new vehicle, kick + steal money

first of all i work for a living! so unlike some of you i can only get to the forum after work and having a real life.

so i did not just disappear!!!!!!

it was in Cairo map host name A00000008

i was on a hill snipping (not the greatest sniper there)

after 4 deaths of choppers sneaking up on me and killing me i got a transport and a sniper (\$1000 one).

so as they sneaked up on me i would jump in the transport to save myself. and fly up so the snipers on the ground would kill the choppers.

after doing this 3 or 4 times he told me to get rid of the transport. as i was also using the transport to go back for bullets & repairs.

he then said get rid of it now or get kicked!!!
so i did not listen! it is mine i bought it.

he then kicked me and banned me i am still banned

I do not think this is right.

I am not the greatest player. BUT WHO MADE HIM HITLER.

Oh, I am very sorry!

Anyway, what you did was not team hampering and should not have been kicked for doing that. The mods are telling you what to do in an online multiplayer game. Fuck teamwork in that case...you were having fun and they wanted you to kiss their ass.

This is BS.

thanks guys

i believe there should be a way for we to revoke there status!

as most of these shitty MODS are probally kids that can't even clean there ASSES proper and so the have to play BIG to get attention.

And banns should only last 1 to 3 days at most as we all play different with different sets of players on out TEAMS.

as i like being a solder or SBH.
but when there are lots of them, i play SNIPER or REPAIR MAN

Now most of my friends don't even play renegade anymore due to this reason!

i see more & more servers EMPTY with no players.

but yet these MODS are acting as HITLER and complete ASSES.

is it just me or you guys are finding it the same way.

thanks every one
as i have now VENTED MY FRUSTRATION!!!
and said what i think!!!!

we need to come together and solve problems like this as a team!!! or more and more people will QUIT and we will be left-out (THE GOOD & PROPER PLAYERS)

If you were in my server, I wouldnt kick you right away, but if you stole/killed team vehicles, cursed waaayyy to much in every sentence, and kept doing things like obby walk, tunn beacon, then I would kick.

Otherwise if you hacked I walk check IRC and ban you without testing unless i'm not 100% sure. Sommtimes I get PM'd

"Omg why am i banned"
"cause you hacked"
"omg nub, how you know?"
"Irc logs ftw"

I didn't mean it like that. I meant to say that down talking to a mod shouldn't be any worse than down talking an average player. And I believe it falls within "Breaking Server Rules" to decide if doing said offense is kickable.

I do mention BOTH players and mods in my reply.....I no it's no difference if you talk down to a mod as you do a normal player, but 9 time outta ten the former is more frequent. Mods keep servers clear of n00bs and cheats (for the most part) and this kinda authority invites abuse and retardation in the thousands so mods earn the right to kick if they are being abused because it's like a stuck record to them "OMG WHY U BANT MEH?" "OMG I R OWNEDING U NUB" "F**K YOU F**KING C**T T**T A*****E" etc etc etc.

Well simply put IMO, a Moderator can enforce the rules of the server to any degree of severity but cannot use those same powers to forcibly, for example, take credits from another player. This has happened before!

You could ofcourse put the vehicle limit a tad bit higher. But yes, if he broke the rules, then a kick/ban could have been justified. I hope someone explained him the rule before he got kicked/banned.

im guessing he was prob kicked then came back frusturated said something like wtf, and got the banhammer for swearing..

but on another note i can see the good in that rule. i mean you are sitting there sniping away with an empty vehicle sitting beisde you that is not being used to help the team, however is still counts towards the limit. and what if some lucky guy would get hs on you since as you said you are not the greatest sniper you might stand still or not dodge very well (just a guess) but if you die that chopper is now up for grabs for both teams, if you get beat to it by a player for the opposite team. which might very well happen as cairo is a huge map then you have fucked over your team. now

again server rules are server rules they are not up for debate... if thats their rule that you cant snipe and have a vehicle then you must follow this rule or you get kicked. its just the way it is.
