Head over to <http://www.ea.com/cncmovies/tiberium.html> to watch all in-game movies again and again and again for all C&C games, ofcourse including Renegade!

Edit: EA had to take it down for legal reasons.

Nice find, that'll save a lot of time that would be wasted extracting them with XCC Mixer

1. EA seems to have taken it down for now, they probably discovered something that shouldn't have been there
2. What's so old about it? It was announced during the 2nd episode of battlecast primetime, released Thursday

It's down for legal reasons... we're talking about footage from dozens of actors and I guess one of the ducks wasn't in the row properly. It will probably be down through the weekend if not longer.

When it was working you could replace tiberium.html with redalert.html to see the RA and RA2 + YR movies.
