It's no secret that the Obliv loves Halloween. It hurts me what you people are doing to it. Yeah you people.

In the spirit of the holiday I would like to give you guys some of my favorite Halloween related entertainment.

In regards to piracy: The Simpsons episodes can hardly be called piracy, just think of this as a recording off your tv onto your DVR or god forbid a VCR. Not to mention that I haven't seen any of these Halloween Episodes in cindication in years. They just don't air them anymore, I see no harm in handing these out because obviously they don't care about them enough to bother airing them again.

As to the animated flick "The Halloween Tree". To hell with cartoon network, they don't know what is good anymore. They only put this movie out on VHS and they haven't sold them in at least 5 years. The only way to get this movie is to buy a used VHS....bah, I don't even have a VHS player let alone want to spend money on one.

So that being said I hope this thread stays open. I honestly fell that no one is loosing any money over this.

Now onto the good stuff:

Usenet Users

The complete Treehouse of Horror collection:

The Halloween Tree:

Torrent Users

The complete Treehouse of Horror collection:

The Halloween Tree:

Things to note: Pay attention to the linear crappyness of the Simpsons episodes as the seasons pass. (Writing/plot/style of animation, not the encoding)

If this post passes to the liking of Crimson and doesn't get removed I'll be making a new DVD with all the Halloween stuff from other 90's shows. (Shows like Home improvement, Roseanne, Garfield's Halloween Adventure etc etc)

EDIT: Forgot to mention that I'm posting this so early so that everyone could get everything regardless of internet connection.

EDIT2: Image of The Halloween Tree:

Regardless of my activities outside of these forums I try to follow the rules as posted with little to no bending.

@Blue Limewire is low level piracy.
