No I mean it was a just quick made joke. The people should laught because of the pose and the silly band names with words/names from ren (Crystaldeath, SILO, RavenDoza) in a metal/rock style font like on real metal/rock-event wallpapers for example Wacken Open Air (I don't know what you have in your country).

Is there any tutorial on how to animate this model?

[edit] Those are some nice fonts. Can you please share me the names of the "Harvest Tib" and "Kanes instanz" ones? I like having a collection of pretty fonts. Thanks.
