Hello,

I am looking for this skin of the Nod soldier. I found this at FilePlanet but I am too poor to start an account there. So I was hoping if I can download it free from elsewhere.

Thank you!

Damn fileplanet. I hate websites that force you to pay to download simple things.

You will find pretty pretty much everything at Game-Maps.NET

There is still lots of skins in the server that I need to link up to the site so people can download.

But when am done, the site should have pretty much everything.

By the way, that skin owns, I've been using it for about 2-3 years now.

Err fileplanet is free with the option of paying for better service.

I do hate it though.

Free? I never really found any buttons to download a file for free, and I don't want to give out my address, they're the kind of company that'd spam you a lot.

Thank you, Oblivion even though I managed to find it elsewhere.

@ IronWarrior

Yeah that site is very well organized. Good job! I like it a lot. It will be great if you can upload other skins also.

Err..I have a n00b question! Is Game-Maps.NET your site? Or you are the Admin there? Sorry about this poor n00b question...I am nub in these things!

I already use a skin, but if i wasnt, I would soooo use that skin, it looks real good, and if you want to make it in your game forever, replace the one in always.dat and it will load everytime that way, I noticed skinned characters will show their original texture for a second then splash to the custom texture, replacing the original in always.dat will make it load as if that was the original nod soldier skin.
