Wipe your nose there's a brown smudge on it.

That i had to laugh at.

hehe and what's to thank it still don't work.

Bypasser's like crazy, just go play for example n00bstories or even BI, there a dime a dozen and if you tell a mod to keep a heads up about them,then the (luv2b)<<(good example) mute's you right away or they threaten you or some other Lame not very Professional action to the player for saying something,IMO i beleive this modorater Should be removed for letting there position go to there head in ALL the wrong ways, hell i even still have a copy of the Abuse from this mentioned mod in my client.

Oh yeah but i forgot Crimson Backs all her mods yet this one still is there,IMO that don't say to much now does it? lol.

It's luv2pb. If your going to babble and be a jackass at least spell my name right. Not to down play our great moderators but I am far more than a moderator.

Since I'm not going to let that jackass derail this topic I will get back on it. Sure Renguard has flaws but without it this game would be unplayable by now. It is created by people that do not get paid and like everyone simply don't have enough time or energy in their days. People who get 99% bullshit from morons like zillia here and very few thank yous. The expectations people have of Renguard and BHS amazes me sometimes. Try getting a grip on reality and using your brain before you make stupid ass anti-renguard post. Or better yet, simply don't use it.

This post I have quoted and the other just prove my point, And I am a 43 year young woman, Not

an imature little child like yourself.

If anything life will slap you 1 day very hard, and i know your kind and what is coming for you in your future from experiance.

Have seen your type many many times.

And i don't cry just because i get killed, After all it is only a game, i only point out the obvouse and you need to GROW UP Child and learn how to be an admin or mod cuz that you may be in that server but lack in life badly!

rofl

btw zillia, why don't you prove you're so much better than BHS coders and make your own RenGuard? Or why don't you pay their bills so they can work on it 24/7?
If you think that everyone's cheating why don't you stop playing?

Seriously, we all know there might be cheaters around, just tell a moderator the name and the cheat you're suspecting him/her to be using. Spamming all chat with useless "OMG CHETZ!" is not doing good for you, the mod/admin team and the other players.

If you can't stand the thought of having cheaters hiding around you, then do yourself (and ourselves) a favor and quit playing renegade, as your behavior is not helping anyone or the cheaters situation to be solved.

You don't know even the half of it and please don't put words in my mouth.

I never ran or run around yelling omg cheats! , If you read my post correctly above you would have seen that, and why?, well because my husband is an excellent coder and we run our own server and he has made a program better then renguard,and yes we do run it here on our own server and yes it does catch all cheaters, it run's next to renguard and biatch and with all 3 of them All cheats and cheater's are booted and they cannot return, but since no one wanted to talk to my husband or myself when we attempted, we gave up on them server owner's(we arent going to beg them thats for sure* lol, and no i won't stop playing a game we like, why would anyone? we just know better of where to play and n00bstories is not 1 of those place's Very bad mods there , not all but most and from what i seen this ones made a temp mod and that one etc.etc. Very poor way IMO to run a server very un-prof. but say what you want you kids seem to know it all don't ya? lol

As for luv2b an idiot, i still believe you should be banned as a mod there along with a few others but hey it's not my server(thank god), as you need to know how to treat players no matter whom they are or what they say not just up and mute them or boot them for really nothing and learn how to detect cheater's.

and try adjusting your attitude as well cuz that attitude along with you being a mod or an admin on ANY server is not a good mix!

1) RenGuard is an anti-cheat working in both sides, client and server side. Even if the server runs it, it can't catch any cheater, so that wonderful program that your husband made must be something like biatch, I suppose.

Anyone can say "I did this and that", but unless you're gonna prove it, no one with a single brain cell will trust you.

2) zillial never ran or run around yelling omg cheats!

You are doing it while playing in n00bstories server. Also, if you don't really like how we handle

cheaters please go play in your wonderful server, and please tell us how to join it because the whole Renegade community is really curious about a cheat-free server.

3) zilliaAll cheats and cheater's are booted and they cannot return
That shows YOUR knowledge of renegade, which is really poor. I'm not gonna go into details, but that statement is wrong.

4) zilliaYou don't know even the half of it and please don't put words in my mouth.
what you mean?

It is technically impossible to block all cheats server side. The best they could do is pur lagreduction completely off but that would only lead to incredible lag, damage not registering, ...

Even with lagreduction off, some cheats would still be possible.

If (s)he comes to tell me ere that they blocked all cheats server side, then I'd prefer them to put their money where their mouth is and show me, or rather the people of BlackIntel who'd be very intrested.

Crime-son, LOL. 43 year old woman my ass, you probably still live in your parent's basement. The nonexistent anti-cheat you speak of would not benefit anyone if no one could use it. Common-sense comes into play here, something you clearly have none of.

The RenGuard coders are volunteers, they have their own lives to worry about, they do not use all of their time attempting to keep a dying game cheat-free, and shouldn't have to.

Coding an anti-cheat WITHOUT THE SOURCE CODE is one of the most difficult things you can do coding-wise. It's not as easy as you think. Go back to your hole.
