Ok I Was Asking If Anyone Could Help Me Make A Obby Gun And AGT Gun For Game And Code As I Have Been Trying and It Never Works

I Evan Watched Reborn's Tutorial On www.renhelp.net And On That It Proved It Working But Each Time I Try It Ruins The Map

Then you're probably doing something wrong. I've done exactly like him. And it works fine for me.

What do you mean "ruins the map"? I showed it working in-game for every tutorial so people could see it worked.

just change a preset in your objects.gm file and use LUA script for example.

its easy, if you google for the obby gun, you can find all you need.
