Okay i know very well that you have no proof that even my brother exists other than if you have seen me and him in the same server at the same time

I posted here a year or 2 back about a problem sort of related to my current situation and it did not go well! You all Deny'd my plea for you to unban me from Jelly Servers when i claimed that my brother had used my account, gone on the server, got told to post a SS of dead HON and he failed to do so i got banned!

But please at least listen to me->Okay here is my problem...

My brother began to use the BIGHEADS hax as he felt that he was regularly killed by cheaters who used the BIGHEADS hack and AimBot, anyways unaware to him many servers run BIATCH Anti-Cheat and such so he ended up getting banned

But as me and him live obviously in the same house we connect to the same Internet Router and have the same I.P address! Result is im banned 2

Now please i know that if you are a server owner or influence the running of a server you have suspicions that this could all be a giant lie and i might be trying to just get in and hax

Please take into account that i have never once being accused not found to have ever hacked...if you have ever seen me in a server you might pick up on the fact that i hate hackers and despise it, i also follow the rules(Except the HillCamping one, i hate that)

So what i am trying to achieve here is basically for all server who choose to ban my brother please do so via a NICKNAME BAN...not a I.P ban...His current nicknames are SNipE3RR Snip3r killer4u

Thank You for hearing me out

to get rid of cheaters for good(referring to your brother NOT YOU) An IP ban is the best because he could just go make another nick so there is really nothing server owners can do but ban the ip so either get him to stop cheating or use a different ip /connection.

What did you expect to happen, when you told everyone that your brother cheats?

Reboot your router if you have a Dynamic IP (if it's static, you're pretty much screwed)... but if you get banned for bypassing bans then don't come crying back to us.

I REFUSE to let my little 12 y/o brother download cheats for ren, as he'll get me banned to, no matter how much he wants them. I remember him saying "i found a cool gun on '9' it kills things in one shot"... I was like "WHERE THE FUCK DID YOU GET THAT FROM?!" and blocked all known cheat sites from my router.

The way I see it you have several options here.

- 1/ kill your brother
- 2/ beat the crap out of him
- 3/ destroy his pc
- 4/ download gay porn and viruses onto his pc
- 5/ put magnets inside his tower unit
- 6/ password everything on his pc so he can never use it again

None of these will help you in anyway to get unbant, but they may help you feel better because every network owner and or admin/mod that has seen your post and has your i.p has now banned you and therefore your "cheating brother"

If you wanna fresh start on ren.

Move house..... family suck anyway

Moderators: Respect the decisions of the moderators, they hold that position for good reason. If you have any serious complaints, contact Crimson or Blazer privately. Do not start a public bash-fest against a moderator you don't agree with.
Also keep in mind that you are not a moderator. You do not decide when threads are locked, posts are deleted, etc., and therefore should not post as such in threads. The "Report Message" and Private Message features are there for a reason.

I respect your opinions Especially with me killing him or killing his comp! But really this isn't an option cus 1:My big brother pays 4 the internet cus it's his router therefor he has the password to the config area

2:My litte brother is a totall nutter and would probably wait 4 the oportune momment to stab me in the back with a knife if i destroyed or changed ought on his computer!

Although my Primary and only target or achievment from this topic is to alert as many server owners that if they catch my brother cheating please ban him via his account names not the I.P if possible

And to back this request up at the time you detect he is/if cheating you can test me 4 any hax/cheats! If im clean(Which i will be) Then you can ban him via Nickname not I.P confident that i do not hack

So then, who's word do i have here that they will at very least give me an opportunity to stay and let him and him only get banned?

Certainly not mine. We just ban on IP and on name, and namebans are too easy to avoid. You may consider yourself lucky that we haven't implemented serial banning yet

Yeah, thanx 4 that Ethanol...

I have bit of bad news...i had a massive argument with my Little Brother and i was angry so when i found i had been banned from Baddog Gaming servers i went absolutely insane!
I was totally out of controll man...i swore like mad, called the mods names and spammed the server insanely 4 like and hour after i had rejoined after auto-kicked like 200 times....

So i think im in a bit of trouble there

But hey, i tried the nice approach and it kinda worked...i had a long chat with a server mod or someone "StealthEye@IRC" or something...he said that he could not let me in to test me cus i would have to be tested every time i join....
He also said that "It's a server policy" and that "All servers use this policy"

He would not unban me from I.P and put on my bro's nickname bans...i even resorted to begging but he held firm!
It was a BlackIntel or BlackCell server...one of my favourites...

And im banned 4 ever now->It's hard to cope with here man im losing it! I just can't grasp it that after 2 whole years of 0 cheat, no hax of anysorts...a relatively clean record except a incident like this 6-18 months ago

People still discard me and neglect me someone said to me "Nice BIGHEAD hax" and i was so so FURIATED by it!
I never once hacked yet cus of my same I.P as bro people brand me as a haxor....

We're really sorry, but as said, if it would be so easy to detect cheats we would unban you, but it is pretty much impossible. This means that we would have to check you for cheats every time you join. Also, unbanning you would make us having to unban many others too, because they will put up the same story.

I understand where your coming from i really do i mean if i was in your position i would do near enough the same thing...

But come on try to see it from where i am->

If you had played on a game and loved it for like 2 1/2 years then one day someone you knew gona nad cheated, fucked around and got YOU banned then you would be pretty pissed of don't u think?

I mean on Kamuix server it comes up with "[NR] You where banned by <modname> for bighead hax at <time date> untill 3007"

I mean 4 gods sakes! That's just so unreasonable->They not even ask or anything...i just trye dto join to spawn some shit and blow everyone up with those cool guard towers you can make and have fun and WHACK! It says im banned

It's just well, AGRIVATING-<No one listens, no 1 cares, no 1 wants to know.-As far as they know and are concerned im a haxor and shoudn't believe a word i say---It makes me wanna cry and throw this computer across the room sumtimes when someone turns round and goes "NO!" or "Srry your banned via I.P, it's a policy"

Kamuix is just a joke don't ya think! I mean 3007! I would be in the ground rotting somewhere by then and Renegade won't even be played 1000 yrs from now

If anything, you'll have to take your case to all the main servers, on their individual forums, and give them the story. If you're lucky an Administrator MIGHT be nice enough to let you back in.

Or... you could donate a decent sum of cash to a server of your choice, and that may persuade them to give you one more chance.

Remember too, that a lot of ban stories involve 'brothers' , and so, you'll be in for a world of pain.

15:50If it is your younger brother:
Change your IP

kick him in the balls then punch him in the face then do the following V V
If he isn't computer savvy, mess it up some how
then, secretly delete the cheats then ask your older bro to block cheat sites on his modem using
either computer
last, download porn and viruses on his computer

Older bro. (seriously doubt):
nothing you can do

Yeeeeeyyy, let's go help people ban evading, that'll help.... Not.

You know i did not mean that towards everyone of your Level!

I just meant to state that he does not have the mere power to get all the servers to let me back
in...that's all LOL->

Even if he had twenty stars, troopr02 STILL wouldn't have any 'power' .

Do you guys run Renegade on the same serial number? If not that is your ticket.

Simply serial ban your brother and you will be fine.

Or what you could do is come up with a password that only all of us, and yourself know. This way if he gets banned, and a server owner asks if you are you, you give them the password to let them know it is you.
