Well what are the new commands for the console we should make a list. I was looking in a 'cheat' forum (it was not really, it just contained the commands)

So so far I know......

extras-gets extras units

allguns?-Gives all of the guns to the players (Is this one true?)

mlimit-What is the mine limit

limitd-Set the new mine limit

musica-plays a music file for all people

I know this is a small list so please add what other commands are there and what other commands are there for Bren Bot.

Or you can just go into renegade and type "help" in the console prompt.

A list of commands will drop down. You just type in the name of that command and it gives a description of what it does.
