You forgot one thing in the good points: the sniping is superior. I mean the scope can zoom in really far and it's a hard challenge. The scope has the little green tint which look really cool. Although, I must admit: I got a skin to take away the green tint and the black. But since adding a new skin is only considered making the game look better, it is not cheating. Edit: *sings... and

then signs* [February 25, 2003, 17:11: Message edited by: dead4ayear2]
