Note that obtaining copyrighted material in such a fashion is illegal. It's also against forum rules, too.

ehhhh? you dont have to show me something illegal, it could be legal.. librivox is legal and it has a ton of audio files, because they are all narrated from voluntary users. i should not have mentioned limewire and kazaa but i am just stating the facts.

Its just not a good idea to ask questions like that on these forums.

Just rephrase the question. "Does anyone know where I can get a legal audiobook for <insert book name here> for free?"

unfortunately, I do not know where, sorry.
