Capitolizing letters in the beginning of each word is really obnoxious and gives me trouble reading your sentences.

If you don't understand it from the tutorials, I'm not exactly sure how we can make it any more clear here :/. You're just gonna have to pay for an airplane ticket for oblivion to come over to your house and teach you everything. You also have to pay him \$40 an hour and supply him with room and board.

This is even worse buddy, just 1 Capital in the start of a sentence. Anyways don't double...triple post, just use the EDIT button. (Under your post, but it disappears in 30 minutes.)
