Does anyone know how to make the Renegade bots smarter and more aggressive? Or has somebody made custom scripts for better AI bots. Thanks in advanced!

There is an option in Level Editor that is funny enough called aggressive or so.

Right click over the preset for the bot you want, you can also choose how defensive it is aswell.

I know that, I was wondering if there was a script out there that made them smarter, seeing that there is actually some scripts that do that.

It's a bit out-dated, but the bots are waaaay more advanced than anything I've seen.
