Yeah, just look at the posts this Lisu person has made, 5 in a row on one thread all very unrelated to anything. About skype, limewire, skype again, "liek ur pix lulz!" and all sorts of other gibberish and spam.

There's a "report to moderator" button for this...

We banned the exact same person on renz0r.
This person was spamming our shoutbox with all kinds of nonsense.
Then after a while of being registered I find the admin mail address full with mails.
All from this Lisu.
And all in this weird jibrish lingo.
About how he likes GDI and is also big (?).

I banned this user cause there seemed to be no reasoning with him/her and it really became a forum problem for other users.

I think it's a bot, so otherwords, should be banned already. ^^

I don't think it's a bot, but I banned it and split off all their shit and related replies to the Silo.

I don't think it's a bot, it was paging n00bsvr01 the other day for some odd reason... but as if it was an actual person.

Ironically, this 'bot' was better at grammar and spelling, and was more interesting and engaging than at least 50% of IRC participants.

Lisu was playing on Kamuix's server a few days ago but he/she seemed to be typing random crap like the numbers 1-8 and then repeating all over (in the server).
