Ok so me and a bunch of EKT people and M0nKeyZ/[BBF]Ryan are in a bit of a debate over a really stupid thing, but we want a more abroad opinion on the situation, and request no noobs or un-experienced players post here, for it will annoy us greatly. Ok so Ryan posted on EKT forums asking what was with his ren or something, just a small technical problem asking for opinions, advice, and maybe help, and a certain thing was noticed... This thing was suspicious, but we're guessing has a reasonable explanation. Here are teh screen shots that he posted with the topic, see if there's somethign wrong there.

If your a little abesnt minded, the last one has 999 ammo. The point of this debate, is this: Is that a glitch, a hack, or an edited screen shot. I believe it's a glitch, notice the point of this is his ren's being glitchy and laggy, and also he was reloading as that ss was taken. Also, the points for all people stayed the same. This is something that noone i know could edit to make, given the background's detail. Because first they'd have to edit the text out, which is the part i don't know anyone who could do without leaving some error in the making, and copying and pasting text on perfectly, with the money changing still. It's just not done, especially by Ryan. So that's the story, we want to point out one final thing, if the ammo is edited so it's a hack, then we have a new graphics artist in the community, and if the points are too, we have a new GFX genius...

PS. There's no option of an on/off switch for infinite ammo, and also proof it wasn't hacks or edited screenies, is that he posted them on the forum. If he edited the first two, and posted three, then that doesn't make sense, noone's THAT stupid, least not a player as good as ryan. I want contribution, so i have the right to tell EKT to shove it somewhere it shouldn't be shoved once this is over.

I will agree with you, it must be a glitch, as it's impossible to turn unlimited ammo on and off, as it has to load the objects.ddb for the ammo to even be changed, and once the objects.ddb is loaded it can't be unloaded (until Renegade is shut off).

It's actually until next map is loaded. :/

That's happened to me before. I didn't think much of it, mostly because a regular soldier often won't outlast 400 rounds anyway.

He has crazy lag, Maybe he switched to his pistol then back to his rifle again?

That could possibly explain the 999 ammo.

1 thing I think should be added! I dont know if it means anything. He posted those ss on there site because they !aab and/or !dtrust him and he was lagging. I dont see that anywhere on any of these posts here. Now dont !aab on someone make them lag IF they have aimbot? I was just on there site there are like 3 topics on this not just 1. Its WTF, WTF2, and AM. I think its funny that eveyone if that means anything missed that. Next is in another post I read it on there forums and I think it says that BAITCH banned him for something I dont know for what. Thats all I know about it. Maybe it helps him maybe it damns him. I dont know eather way and I really dont care eather. But I think its FUNNY that if you are not in EKT and your GOOD!!!! YOU MUST HAX!!!!!!!!!!!! I seen players get banned by some for the reason of: YOUR NOT THAT GOOD. I have also heard of EKTs caught HAXING on there own servers and nothing happens to them.

<--- M0nKeyZ.

ive never had a problem with lag be4 (i have !aab on me also) becoz im better than most of there members (99% of them) ive had !aab on me ages ago, the biatch ban was for damage hack which was on my friends ip on his name but becoz ive been to his on played a few clanwars it picked up my ip aswell, all this was sorted.

i took multiple ss's and posted the one with the most lag in (the last one) which has 999 ammo, so therefore they all jumped on the band wagon of "HE CHEATS. BAN THIS MOFO" (etc) then i posted the other 2 ss's and they thought i copied the player list, stood in them exact positions, changes my ping (etc) at the top (edited them) and then not one of them could admit that they could do it and i cant edit for shit.

1) they put dtrust on me ( i belive this is what made me lag), this makes half of my shots not damage, also other people have had this problem:

<http://elitekamikazeteam.com/modules.php?name=Forums&file=viewtopic&t=4060>

i tried uploading my video to youtube and photobucket, but its not having any of it

EDIT : wow my english is bad but if u can understand it ull know what i mean

You guys might want to talk to BlackIntel... !distrust makes ANYONE lag. It switches the damage detection to the server, which causes some shots to completely miss. I believe it only does that in full servers, though.

EKT almost always has 20+, just because the memebbers are becomming stupid doesn't meant their server is crap Ok so it may be, but it has cool mods+add-ons, and it's generally fun Anyway's that's not the point.. Thanks for clearing that up Ethenal, and trooper i believe BBF are actually pretty skilled players, not best, not even that close to best, but they're good enough to make ekt think that they hack

Uh, no. Goku has let in SO MANY retards into EKT, it's not funny, for one, NightStalker, if you get banned for ANY reason, he just jumps on the bandwagon and says ZOMG JUST LIEK TAKE IT LIEK A MAN! Or Crazygurl, which sucks up to Goku like he's her god.

I know that's hipocritical, i did flame ekt in general a bit, i'm sorry, just please resume the topic and stay on topic... Also that editing job is terrible, and the editing denyance was the fact about the points, not ammo... Anyways, this topic is "restarted" Contribute, don't argue.

No if you use \*cheat name removed\* to inject an objects.dbb and then press the panic button your objects will still be online. You can only turn off objects by leaving the game or waiting until the map finishes.

If goku wants to respond then he can, i did ban everyone that i didn't know/like in the ekt server one night, and i wasn't banned/kicked from clan for it 1. i left, 2. your mods ended up only tbanning me so i wasn't banned there. And if yer gonna pull un-related info into this i'll have those posts specifically deleted by mods. Please stay on topic and contribute info involving monkey's or the immediate situation.. <.< And finally, thank you anyone who has contributed real information, i'll leave the mods alone fer now, people are gonna enjoy reading what a mess this topic is anyways...

I find it very amusing reading this..

Joke 1: I mean, apparently Monkeyz is better at sniping, lol (I am not going to argue about the reason of his ban.. I don't really care if he would be playing on the EKT server yes or no)..

Joke 2: Its just way more fun to start calling EKT names and how many freakn morons EKT has, then staying on topic and help the TS out with his question? Right? That's not childish at all!.. lol, love my own sarcasm here.

I 'really don't want to flame here, but the way that is spoken here in this topic also made me wanna put my reaction in here.. I find it wrong to talk like this about any1, then why would you do it? (I mean didn't ur parents thought you the word respect or anything that's close to that word?), especially when u were a member of EKT, and now try to.. i don't know score points to get in a new clan? No, i think its called backstabbing and it doesn't make u look better imho.. (My point? I hope its clear. )

And I didn't read the whole topic, I got tired of laughing and kind of pissed off at the same time so, excuse me for that. ^^

\*Ow and now need for me to go undercover with some made nickname.. I didn't even knew this Forum was still alive.. Great thing though! BTW, does Gr8BigGuy still playes Ren?

He does, his home is n00bstories, and he's still the 'Gunner' that loves to kick everyone's ass.

You'll also catch Gr8Chaos in there too.

The only reason Monkeyz was banned by me in the EKT server is he posted a ss with unlimited ammo hack in it.

24 hours later he posted two ss with 400 ammo in them.

The debate was did he glitch to get the 999 ammo or did he edit the second two ss to 400 ammo instead of 999.

I never heard of a glitch that gave 999 ammo, so I asked him to please provide some evidence that it was possible. That is why this thread was started in these forums. If enough evidence is collected his ban will be removed.

As for Sadukar and all his flaming - he should be removed from these forums as we will remove him from ours. We can handle constructive input but not all his flaming (which is every post he does).

No one is going to listen to you so...yea. And if you don't think lag is a factor, then you sir are mistaken, as other people have experienced the same thing. (EKT is very close to UN lol.)

EKT noobs baned me within a week of first playing the game because i asked why no one gets medals / points / recommendations unless your ekt ? all players where doin well and never get a lookin in there servers . you play for hours in there server and never gain rank stats ect whots the point ....

i moved on to {renegade community marathon server } within weeweeks became ranked 22 out of thousands and some of the games go on for like 4 hours not 10mins like most servers now thats what i call gamein

Mr cookies that post you refer to was just posted and this evidence was never given before. All along I asked for as much evidence as I could get to prove he was not hacking, because I never beleived he cheats, but with a ss with a hack - something has to be done. Now that he has finnaly come up with some evidence the ban will be removed.

Clans in Renegade are t3h g4y.

However it is fun joining clan servers and owning them to oblivion singlehandedly.

Then dealing with either:

"OMG J00 CHET!"

or

"OMG JOIN OUR CLANZI!"

I'm sry, did anyone noticed a something about the marathon SSs, like the fact that none of the scores change yet the money does (take one step and see how all the scores change rapidly in a gam but here the scores are the same, can you say cut and paste, and why would someone have

---

to edit the screen). My question is why is why are there so many threads about this?

I know I'm not a member of any clan, but I have had my thoughts on a few people that play, M0nKeyZ is one of them. Can't people just play without needing to cheat, I get my share of being killed (mostly by being run over and SBHs putting C4 on me)

I've been playing off and on for a while (since it was first released, and yes I'm using TFD now, just don't want to scratch the originals) I don't need to cheat (ok, here is where the smart A\*\*es say something like I need all the help I can get but it's not going to happen) I spend most of my time practicing in the skirmish maps, not much challenge there.

Real Marines don't lie, cheat, or steal.
