I found an old CD with my old renegade modding stuff.

Do you remember ChronoWar?^^

I had a nostalgic moment yesterday....

Allied Prismtower (was my inofficial model after this mod died)

Walls and Bunkers I made during the time I was a member there...

WOW! Nice stuff, maybe you could do a public release? RenHelp.net would probably host those.

Canadacdn deserves the credits for not being greedy and selfish like you.

Yea, he shows his stuff off. But atleast he doesn't threaten to "not give it away," knowing that he'll

never give it away anyways.

Wow stop being such a jerk. Canadacd released Scrin's HUD without permission? Also he didn't credit Scrin as I heard and when I looked around. And you're calling him selfish and greedy? You need to get a life man, stop guarding your friends.

Hey, let this shit carry elsewhere.

Anyways, that's cool that you made that ages ago. Yeah, you should definetly have 'em uploaded somewhere.

True. They do, but a little help/idea never hurt. :v They can be used for concepts for other buildings..
