It's not the nuke that will end the human race...

It's the gay bomb.

The idea is that the soldiers become too preoccupied with snogging and throw down their guns.

Perhaps a few members of this forum have been hit by this bomb already when they were testing it... Not to mention any names.

The whole "gay bomb" thing was the dumbest ever...even if by some neuro-chemical means you could turn a group of guys gay, that wouldn't mean they would drop their weapons and start humping each other. There are mixed male-female forces all over the world right now, and they aren't fucking like rabbits instead of doing their jobs.

That sure would be funny though. That right there is the stuff p0rn is made of. Now if only they could find a way to add the midgets ...

(Government reverting strategy due to Blazer's Post)

Next on the list: The Bi-Bomb.
