Just wondering i have the beta and it is a very cool game. Forces can control enemy bases and the control of bases changes all the time. The downside is no one ever wins.

Plantside? Never heard of it... What's it about? Defend your Plants, destroy the enemy's plants? Collect plants? and be the one with the most plants? etc?

Star Wars Galaxies looks better...but I'm still not going to pay a monthly fee...once you buy a game...it's bought...you shouldn't have to buy it every month

Its worth the monthly payment. Think about it is it cheap to host a 5000player server 24/7 with tech support and no down time, you really think they will make profit on such a complex game of just selling it...

The reason Sims Online wasn't a hit like the rest of "The Sims" titles was the fact that youo had to pay a monthly fee to play. It might start out ok, but I bet in the end, they'll still end up losing money on it. No one wants to keep paying for a game every month, *especially* when you have to pay \$50 just for the game.

I wouldn't pay a monthly fee even if my comp could run the game. Not worth it in my eyes. Spending 1/4 of the purchasing price per month just to play it. I am content with normal FPSs anyway. I doubt this persistant world is worth much. The world domination system in RA2 was a persistant world until the end of the turnament month. And that was free.

It's MMOFPS... and have any of you ever heard of Everquest, most popular pay-to-pay game ever? Yeah, this is made by their company. If you can't afford \$10/month (33 cents/day), I feel sorry for you

Peace OUt What a bullshit. PS looks beter then renegade. You got to work as a team way beter and the sig up is bullshit because they got all ready sended out 20.000 emails for the open beta and then in the closed beta there are all ready a few thousand. so stop lying if you are a renegade ass kisser and never played PS or you are to dumb for it. PS will do beter then renegade and because you pay monthly you will also get very cool patches.

When you say PS is dumb at least tell why. :rolleyes:

_General HavocMassive means that the game has many players on one server. Renegade, MoH, BF12942 are just FPS games not MMOFPS. Planetside is an MMOFPS.

your a retard. the cost of the game will be about 45\$ and comes with 1 month free (each month is about 10 bucks). Perhaps you people have no idea how much it costs to run ANY game server to have 5000 peers (the have an OC-92 connection per server with 4 servers, each oc costs 10,000 a month x 4 = 40,000 in bandwidth costs per month) so if you pay 10 a month and they get 10000 people that equals 100,000 a month, - the 24/7 live tech support, - the weekly updates/patches, - an assload of other stuff i cant remember) so if you cant pay \$0.33 a day to play what is arguable the best team based FPS ever created then thats fine, we probably wouldnt want you whiney, closed mind bitches in the game anyways. oh and to clarify some stuff up, renegade = player hosted server = not mmofps, planetside = 1 big "map" with 10000 people on it battling to control base scattered strategially around the world. there are 8 continents in the game, with about 20 bases on each continent. Once your empire controls all bases on one continent, your enemys can no longer go through the gate to that continent and can only use drop pods from a hart to get in. the game poses more challange, and requires teamwork unlike renegade where a single person can do everything...this probably wouldnt interest most of you people who play renegay on the 20v20 servers and havent ever had a 8v8 clan game using voice comm and dont understand how much more skill is required to make sacrifices for the group (distracting an enemy knowing your gonna die while your m8 hacks the base) stuff like that is key to planetside. il just shut up now, cause im speaking to deaf ears.
