However if you act as a decoy to keep the AGT or Obelisk occupied so that a few engies/Hotwires can get into it and disable it, then the situation would be different

lol, I could see a whole bunch of people running to get into your base, and watch each one as you and your buddies pick them off one or two at a time. Trust me, just rushing in as a soldier will get you know where (exclude black hand).

Of course, the obelisk or AGT will cleanse you off the face of the earth, but you know, such is life.~d.
