ok so how can I get LevelEdit to load things faster takes like 2 mins to make objects and on my old pc it took 2 secs

This pc has

2 GB Ram

Radeon x1800gto

AMD 64 X2 2.37GHz at stock 3.00 when over clocked

Old Pc

254 Ram

No video card , just chipset

Pentium 4 2.40GHz

Os it something with the raid settings ?

Well, I've got 2 ideas....

1) How hot is your processor running? Hard drive? RAM?

2) How many processes are you running?

Try washing your hard drive in the bathtub, it should clean out fragmented data and make it run faster.

Cpu 22 C

Ram idk need to look at it on bios

HD 52 C

all looks cool to me
