Can someone make one that is just like the C&C_Nod_Survival.mix map?

I love that map!

You made it, great map! can you put a light tower in it and make is player accessable! Also maybe some Vulcan chain guns and and the RPG cannon!

Well, I have the materials sitting at the moment and could do that but I'm preoccupied with so many mods sadly. Plus, I'm leaving Renegade so it seems pointless to me now. -_-

I might (not promising) make a server-side edition for Nod Survival before I go and I 'might' finish GDI Survival. By the way, I was planning on using those guns you just suggested

If you are not going to finish it, can you post the files so I can take a stab at it?

I could make a server if I had a hoster
